EDUCATION

Delhi Technological University

B.Tech (**Software Engineering**) - **CGPA - 7.4**

2022 - 2026

Delhi, India

EXPERIENCE

Clear (formerly ClearTax)

January 2026 – Present

SDE Intern | Java | Springboot | Mongoddb | Lombok | Microservices

Bengaluru, India

- **End-to-end development** of compliance-critical e-invoicing and IRN verification services across 6 microservices on a multi-tenant platform serving India and GCC tax regimes, contributing 29 production PRs in 4 months.
- **Refactored MongoDB Atlas Search** query paths to support multi-value lookups, replacing multiple regex scans with a single indexed \$in query, enabling bulk invoice searches of up to **1,000** documents per request and reducing **query fan-out by nearly 99%**.

Ensuredit

May 2025 - July 2025

SDE Intern | Javascript | NestJS | PostgreSQL

Gurugram, India

- Constructed and optimized **10+ backend APIs** for leading clients like **Chubb**, **IndMoney**, **Spinny**, and **PayU** using **NestJS**, delivering end-to-end **insurance workflows** and modernizing legacy code for better scalability.
- **Debugged** complex backend logic to **resolve critical client issues**, improving **API response speed by 40%** and ensuring smooth policy processing.

PROJECTS

NaukriClear | Spring Boot, React, PostgreSQL, Redis

[Live Link](#)

- Scaled a **job tracker platform** to **1700+ users** using **Spring Boot**, **React**, **PostgreSQL**, **Redis**, and **Cloudflare R2** with **OAuth2** authentication and a Chrome extension for auto job tracking.
- Engineered a community module with **interview experiences**, **resume reviews**, **referrals**, and **Q&A** using slug-based routing, **Redis rate limiting**, and **dual-layout rendering** for public and authenticated users.
- Designed a **resume vault** with presigned URL uploads, 5-slot lifecycle management, encrypted session tokens, and **Neon serverless Postgres connection pool** tuning to handle idle connection drops.

VeloCity- Ride Hailing Platform | Java | Springboot | React

[Source Code](#)

- Architected a **Ride-Hailing platform** using **Spring Boot 3.2 microservices** (5 services) with **Java 21**, **PostgreSQL**, **Redis**, and **JWT authentication**.
- Engineered **real-time driver matching** using **Redis geospatial indexing** within **5km radius**, reducing ride assignment latency by **60%**.
- Developed **wallet-based payment flow** with **atomic transactions** and **Flyway migrations**, ensuring data consistency across **5 microservices**.

Stock Exchange | NextJS | Express

[Source Code](#)

- Designed and implemented a real-time **Stock Exchange** platform using **Next.js**, **TypeScript**, **Express**, **TimescaleDB**, **Redis**, and **WebSocket**, following a **microservices architecture** for scalability and maintainability.
- Developed **high-performance, in-memory systems** for **orderbook management**, **user balances**, and **trade matching**, leveraging **Redis Pub/Sub** and **Node.js** to ensure instant updates and low-latency trading operations.
- Integrated **TimescaleDB** and **WebSocket** for **time-series analytics** and real-time **candlestick charting**, delivering seamless, responsive **market data** and **trading experiences** to users.

TECHNICAL SKILLS

- **Languages:** Java , C++ , JavaScript , Typescript, Python
- **Developer Tools:** Git , CI/CD (GitHub Actions, Jenkins) , GitHub , Amazon Web Services (AWS),NGINX,Docker
- **Core Knowledge:** Data Structures & Algorithms, OOP, System Design, Automated Testing, Debugging
- **Technologies/Frameworks:** Spring Boot , React, Next.js, NestJS, Express, Prisma, Mongoose, PostgreSQL, MySQL, LangGraph

ACHIEVEMENTS

- **Expert-Top 2%** in India at CodeForces with **Max Rating 1637** ; Username- **JaanMustafa**
- Secured **Global Rank 534** in Codeforces Round 1002 (Div. 2) among 45,125 participants.
- **Knight-Top 3%** at Leetcode with **Max Rating 1947** ; Username- **Azad1911**
- Secured **Global Rank-340** at Leetcode Weekly Contest 435 out of over 32000 participants
- Solved over **1000+ PROBLEMS** on platforms including CodeForces , CodeChef , GFG , SPOJ , Leetcode
